- Covers exam registration process in detail
- Engaging group discussions, case studies, workshops & quizzes
- Exceptional post training support
- 35 training contact hours

Enhance your career by earning CISA® - globally accepted qualification by ISACA for information systems audit, control and security.

Introduction

The Certified Information Systems Auditor (CISA®) designation is a globally recognized certification for IS audit control, assurance and security professionals. Being CISA® certified showcases your audit experience, skills and knowledge, and demonstrates you are capable to assess vulnerabilities, report on compliance and institute controls within the enterprise. This training course equips professionals with the knowledge and technical skills for proficiency in IS audit, control and security. It also helps in passing the certification examination successfully.

Learning Objectives

Candidates should expect to gain competencies in the following areas after successful completion of the training course:

- The Process of Auditing Information Systems
- Governance and Management of IT
- Information Systems Acquisition, Development and Implementation
- Information Systems Operations, Maintenance and Service Management
- Protection of Information Assets.

Recommended Participants

This course is highly valuable for:

- Internal or external information systems auditors
- Information security professional
- Finance/CPA professionals
- Anyone who is interested in passing CISA examination.

Prerequisites

Basic understanding of IT security or IT security management is useful.

Course Format

The course uses a stimulating mix of instructions, workshops, quizzes, discussions and a practice-exam.

Duration

4 days

Materials Provided

- Course reference manual containing copy of course slides, support documents, quizzes and answers
- Practice exam
- Course Certificate

Practice Exam

A practice exam is part of the course. It aims to help participants in passing the CISA exam.

Certification Exam

CISA exam is not included in this training course. ISACA directly organizes CISA exams in June and December each year.

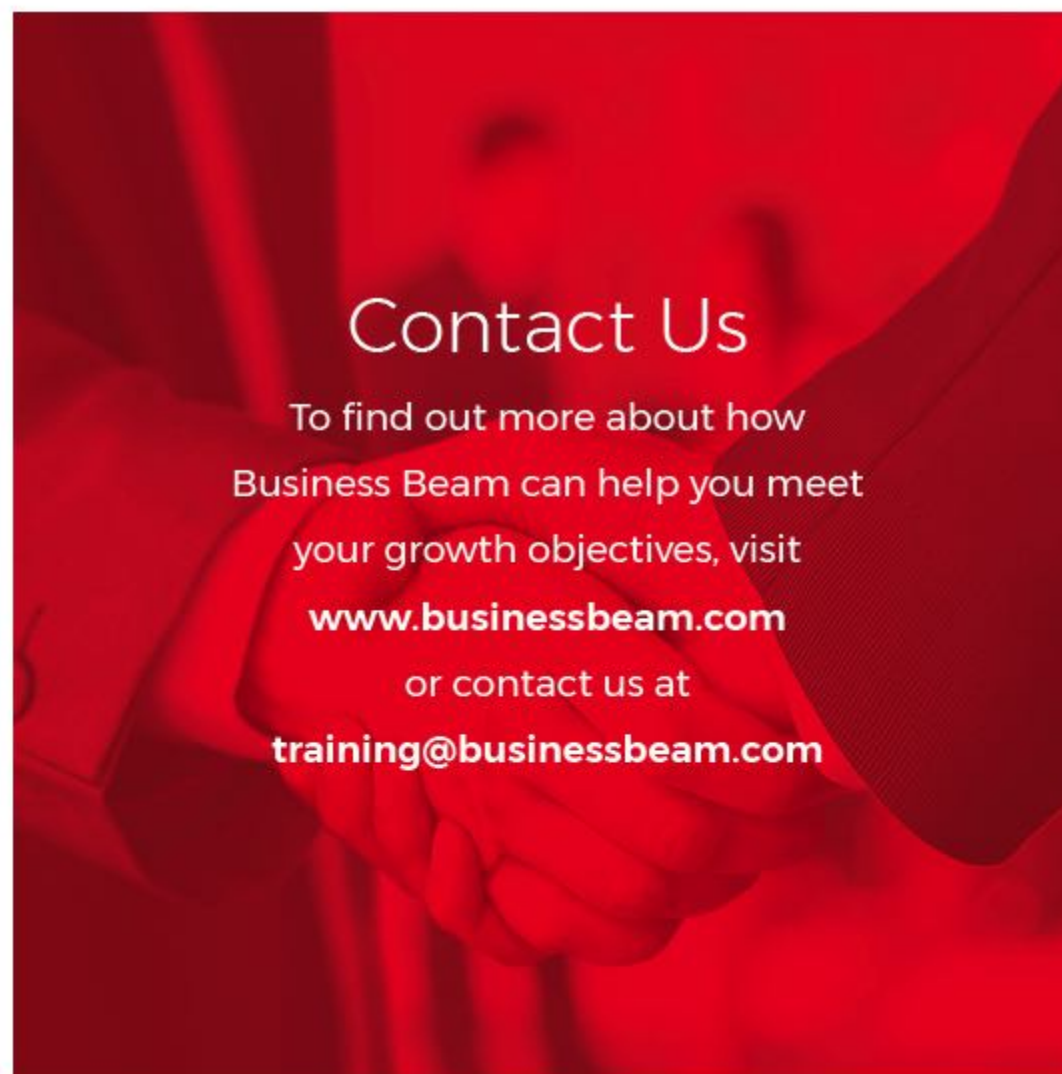

The CISA exam consists of 150 multiple choice questions over a 4-hour period. Candidate scores are reported as a scaled score. A scaled score is a conversion of a candidate's raw score on an exam to a common scale. ISACA uses and reports scores on a common scale from 200 to 800. A candidate must receive a score of 450 or higher to pass the exam. A score of 450 represents a minimum consistent standard of knowledge as established by ISACA's CISA Certification Committee.

About Business Beam

Business Beam is a top of the line digital transformation consultancy firm known for its world-class skills and capabilities to deliver value driven services and solutions. We help organizations to resolve their issues related to governance, operations, quality, services, projects, enterprise architecture, information security, business continuity, human resources, risk and internal audit.
