- ▶ Tracking and controlling
- ▶ Risk management

➤ Software Metrics and Analysis

- ▶ Process and product measurement
- ▶ Analysis and Reporting Techniques

➤ Software Verification and Validation

- ▶ Test Planning and Design
- ▶ Reviews and Inspections
- ▶ Test Execution Documents

➤ Software Configuration Management

- ▶ Configuration infrastructure
- ▶ Configuration identification
- ▶ Configuration control and status accounting
- ▶ Configuration audits
- ▶ Product release and distribution

➤ Practice tests & quizzes

➤ Practice examination

Recommended Participants

This course is highly valuable for:

- Software quality professionals
- Software process engineers
- Software engineers and managers.

Prerequisites

Basic understanding of software development lifecycle is useful.

Course Format

The course uses a stimulating mix of instructions, workshops, quizzes, discussions and a practice-exam.

Duration

5 days

Materials Provided

- Course reference manual containing copy of course slides, support documents, quizzes and answers
- Practice exam
- Course Certificate

Practice Exam

A practice exam is part of the course. It aims to help participants in passing the CSQE exam.

Certification Exam

CSQE examination is not included in this training course. Candidates interested in the examinations should apply to ASQ website to schedule their examination.

The CSQE exam consists of 160 multiple choice questions over a 4-hour period.

About Business Beam
