Highlights

Experienced & accredited trainers

Comprehensive & accredited training material

Practice questions include

Free lifetime course revision

Learn the fundamentals of implementing
CMMI v2.0 in an organization.

Introduction

This two-day class gives you a basic understanding of the core content of the new CMMI v2.0. It's expected that you'll follow this course with one or more supplemental classes, like Building Development Excellence (which focuses more specifically on CMMI v2.0 best practices in engineering and development).

Learning Objectives

This course enables participants to:

- Connect the CMMI model with business value
- Describe the components of CMMI
- Use CMMI as a tool for improving performance.
- Understand the high-level value of a CMMI Appraisal.

Contents

- Introductions & Expectations
- Performance Excellence & CMMI
- Model Structure
- Ensuring Quality (ENQ)
- Planning and Managing Work (PMW)
- Managing Business Resilience (MBR)
- Building and Sustaining Capability
- Supporting Implementation (SI)
- Improving Performance (IMP)
- More Building and Sustaining Capability Practices
- Maturity & Capability Levels
- Appraisals
- Practice tests & quizzes
- Practice examination

Exam

This training course includes Exam Credit to take the Certified Associate Exam. Participants have 30 days to attempt and pass the examination, leading towards CMMI Associate upon passing the exam.

Recommended Participants

This course fulfills a prerequisite requirement for many courses requiring an official Introductory CMMI course (e.g., Intermediate Concepts of CMMI, SCAMPI Lead Appraiser Training, and Understanding CMMI High Maturity Practices).

This course also fulfills a prerequisite if you want to be a CMMI-DEV appraisal team member (ATM) or become a Certified CMMI Associate.

Prerequisites

There are no formal prerequisites; it is recommended that participants have experience in software development.

Course Format

The course uses a stimulating mix of instructions, workshops, quizzes, discussions and a practice-exam

Materials Provided

- Certificate of Completion
- Exam Credit to take the Certified Associate Exam
- Certification as a CMMI Associate upon passing the exam.

About Business Beam

Business Beam is a top of the line digital transformation consultancy firm known for its world-class skills and capabilities to deliver value driven services and solutions. We help organizations to resolve their issues related to governance, operations, quality, services, projects, enterprise architecture, information security, business continuity, human resources, risk and internal audit.

Established in 2004 as a performance improvement firm with a vision to drive organizations towards corporate excellence, Business Beam has served hundreds of organizations of various sizes, different domains and geographical regions including USA, Saudi Arabia, UAE, Oman, Bangladesh, Hong Kong and Pakistan. During the years in operations, we have successfully delivered hundreds of consulting assignments and training courses. Thousands of professionals and executives from different organizations and nationalities have attended them.

Business Beam is CMMI Institute Partner, AXELOS Certified Partner, LearningCert Training Affiliate and itSMF member firm.
