

Inspiring growth and improvement

ISO 31000 Lead Risk Manager

Accredited by PECB

Master the implementation of a
Risk Management Process based on ISO 31000

www.businessbeam.com

Introduction

This five-day course enables participants to acquire the expertise to support and lead an organization and its team to successfully identify, understand and manage a risk process based on ISO 31000. During this training course, you will also gain comprehensive knowledge of the best practices used to implement a Risk Management framework that provides the foundation for designing, implementing, monitoring, reviewing and continually improving a Risk Management process in an organization.

Learning Objectives

- Acknowledge the correlation between ISO 31000, IEC/ISO 31010 and other standards and regulatory frameworks
- Master the concepts, approaches, methods and techniques used to manage risk within an organization
- Learn how to interpret the ISO 31000 principles and guidelines in the specific context of an organization
- Learn how to establish an effective risk communication plan
- Acquire the expertise to support an organization to effectively manage and monitor risk based on best practices
