- Receive training and certification in 5 days
- Engaging group discussions, case studies, workshops & quizzes
- Avail free lifetime course revision
- Exceptional post training support
- One free exam retake
- 31 CPDs from PECB

Introduction

This five-day intensive course enables participants to develop the necessary expertise to support an organization in implementing and managing a Business Continuity Management System (BCMS) based on ISO 22301:2010. Participants will also gain a thorough understanding of best practices used to implement business continuity processes from the ISO 22399. This training is consistent with the project management practices established in ISO 10006 (Quality Management Systems - Guidelines for Quality Management in Projects). This training is fully compatible with BS 25999 (Business continuity management specification) and ISO 27031 (Guidelines for information and communication technology readiness for business continuity).

Learning Objectives

- Acknowledge the correlation between ISO 22301 and other standards and regulatory frameworks
- Master the concepts, approaches, methods and techniques used for the implementation and effective management of a BCMS
- Learn how to interpret the ISO 22301 requirements in the specific context of an organization
- Learn how to support an organization to effectively plan, implement, manage and maintain a BCMS
- Acquire the expertise to advise an organization in implementing Business Continuity Management System best practices

Contents

 - ▶ Continual improvement
 - ▶ Preparing for the certification audit
 - ▶ Competence and evaluation of implementers
 - ▶ Closing the training
- **Day 5: Certification Exam**

Recommended Participants

- Managers or consultants involved in Business Continuity Management
- Expert advisors seeking to master the implementation of a Business Continuity Management System
- Individuals responsible for maintaining conformance with BCMS requirements
- BCMS team members

Prerequisites

ISO 22301 Foundation Certification or basic knowledge of ISO 27031 or BS 25999 and business continuity concepts is recommended.

Course Format

This training is based on both theory and practice:

- Sessions of lectures illustrated with examples based on real cases
- Practical exercises based on a full case study including role playing and oral presentations
- Review exercises to assist the exam preparation
- Practice test similar to the certification exam.

Duration

5 days, including certification examination on the last day.

Materials Provided

- Course reference manual containing copy of course slides, support documents, quizzes and answers
- Course Certificate
- Exam certificate on passing the ISO 22301 Lead Implementer examination

CPDs Assigned

This course qualifies for Thirty One (31) CPDs.

Certification Exam

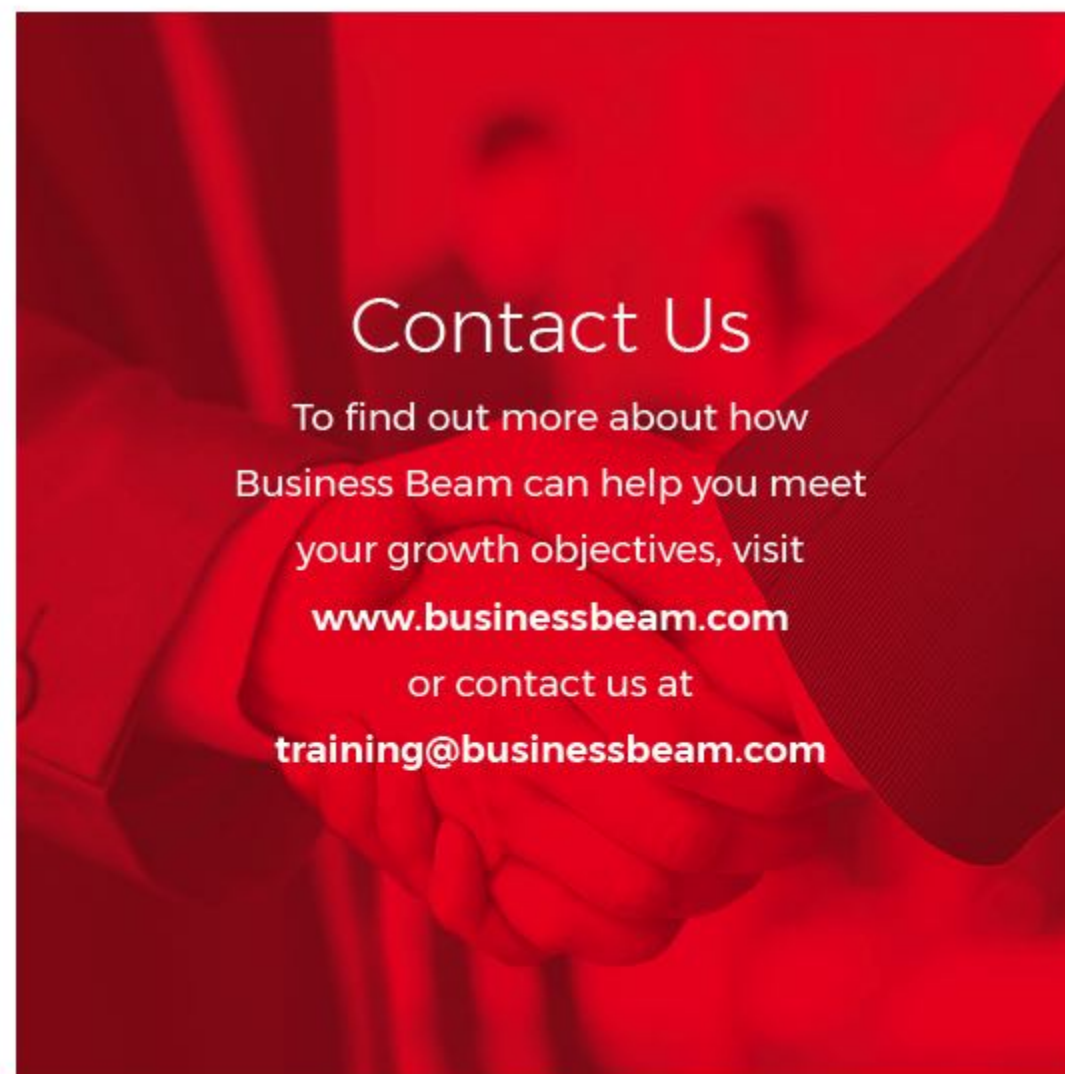

A 3-hour certification exam is scheduled on the last day of the course. The exam is paper-pencil based.
